

WELCOME TO A  
**NEW** GENERATION  
OF **BOTANICAL** PAPERS

As society faces environmental challenges, managing precious resources sustainably is a clear priority.

“

SWM LeafLAB is proud to introduce you to our eco-efficient material

**Cocoa Paper™**

These innovative and sustainable products will turn your ideas into unique and elegant packaging.

”

The Story Begins...

# A Unique Paper Inspired by Nature!

Our passion and our proven expertise in paper manufacturing and **reconstituted products** have led us to develop truly distinctive materials from **botanical fibers**.

SWM's **unique patented manufacturing process** enables us to create a range of truly distinctive packaging materials from **botanical fibers recovered from waste cocoa shells**.

This premium material combines visual purity, incomparable appearance and natural texture with **no dye treatment**.

# Unveiling Some Secrets

Cocoa paper™  
is the embodiment  
of the **Circular  
Economy**  
as it is ...

**Compostable  
Biodegradable  
Recyclable**

Moreover as part of  
SWM's environmental  
commitment,  
cocoa fibers are  
**100%  
Carbon Neutral**

By including  
**Cocoa Paper™**  
in your packaging  
designs  
you are **contributing**  
to the **Jacunda  
Forestry REDD+  
Project** in Brazil.

Intact tropical  
rainforests, are the  
ecosystem with the  
highest biodiversity and  
one of the most  
significant carbon sinks.

The Jacunda project  
aims to **preserve** and  
**manage** areas  
**in a sustainable  
and long-term manner.**

In Other Words...
